*NOTE: *The Probate Act Book for* 1652 *contains no Entries after November 6th, while the Register for the year contains only one Will proved during the period missing from the Act Book, a Will proved in December.*

In consequence of this evident deficiency in the Records, the Extracts here printed from them have been checked off against the Official Calendar for 1652, *and any additional Entries occuring in the latter are noted in the text, but it will be seen that none of these additions belong to the month of December, and only one to November.*

These facts suggest the probable existence of a large number of Original Wills to which there is no Official Reference whatever, at least for the months of November and December.

The Examination of the Official Calendar for 1652 *has shewn that it altogether omits* 15 *Registered Wills and* 45 *Probates of Unregistered Wills, while other* 3 *Registered Wills are entered in the Calendar without folio, as if unregistered.*

It is also a notable fact that the Register for 1652 *contains* 8 *Wills belonging to* 1655, *and* 7 *to* 1651, *of which latter only one is to be found in the Register for* 1651.
